TAVERN VIEWING GUIDE

Market and channel information: This slate is for the Tampa Bay market on Spectrum (34212). FOX is WTVT 13 and CBS is WTSP 10. The Bucs game airs locally whenever they play.

NFL coverage: Games marked FOX or CBS air in some markets, not all. Regional coverage varies; Tampa receives one game per network window. The original source notes that 506sports.com posts weekly coverage maps midweek.

NBA and NHL: NBA games without a network on the chip air on the teams' local channels or NBA League Pass. Lightning games use the local Lightning broadcast.

Soccer: Premier League US channel assignments are TBA in the source (NBC, USA or Peacock). MLS playoff windows are included where noted; matchups and times may be set later. Apple TV is the listed service for MLS.

Golf: Rows marked Aftn are final rounds that run through the afternoon. Tournament notes and locations are retained in the dated listings.

Other sports: The original source says tennis, MLB and F1 have no listings in this date window before the new year. Its notes place the ATP Finals and Davis Cup finals around 9 AM Eastern and baseball in the offseason.

Scheduling: TBA rows have no time set yet. The Buccaneers @ Falcons game on Dec 27 could move to Saturday, Dec 26. Matchups, kickoff times and broadcast assignments remain subject to change.

Source note: Original HTML listing checked Nov 9, 2026. The schedule is reproduced from that file; no outside schedule changes have been added.
